NUMBER 21

NEGRO PREACHER IS TAKEN OUT AND GIVEN A WHIPPING

A negro preacher residing on the Highlands was taken out last night by a mob and given some of the medicine he had been administering to his wife in the form of a good whipping. The negro lived in a small house on the Highlands and when the neighbors kicked in his door he fled to his room. He came back last night and when the mob started a mob of about fifteen armed men and gave him a good thrashing. It is not known whether it was a mob of negroes who did the whipping or whether it was a mob of whites. Reports are that the effect of the whipping was such that the negro had to be taken to his home on North Main and lashed has proved to be a mistake and was evidently made by the preacher's whipping.

MAKES RECORD IN MOTORCYCLE RIDING

Wright Martin riding a Dixie made the fastest record in motorcycle races yesterday afternoon on the Taylor road near Dothan. A number of them gathered to watch the race. He made a two mile run. He made a two mile run in a little over four minutes. The riders ran a mile and then had to stop and turn around and make it back thus in a few seconds at the end of the race John Wayne made a race than Martin's but this was not in the contest. A large number of Dothan people gathered to witness the riding. C. T. Rogers of Newton was here today.

CHAUTAUQUA UNDER TENT

The yearly chauteauqua is to be held under a tent as formerly notwithstanding the report that it will be at the compress. The report that it would be held at the compress is based on many people living on the south side of town to decline to buy season tickets and this statement is made in order that all people will know that it will be located within half a block of the post office as in the two former years. The chauteauqua this year will be rather more attractive than in former years and at least as strong in an actual way. Many of the attractions are of national fame and have made big hits wherever they have been. The season tickets are on hold for reserved seats. B. F. Green has been appointed assistant local manager and has been of the season ticket sale. He is a canvasser of the residences of the city tomorrow morning for the purpose of selling season tickets. All season tickets must be paid for before the chauteauqua which will be Saturday June 16. For further information call on phone L. G. Biggers at 428 or phone 428.

NORTH ALABAMA WANTS COMER FOR GOVERNOR

Montgomery, Ala., May 11.—Hon. B. A. Carmichael, of Tusculum, speaker of the Alabama House of Representatives under the administration of Governor Comer, has been in Montgomery Thursday morning to appear before the court of appeals on local matters. Mr. Carmichael says that in North Alabama the full is Comer for governor and there is no doubt but that the former executive can be elected governor again just by dropping the word "Candidate" Governor Comer will be a candidate for the office of governor. The former governor's closest friends are without information on this score.

Governor Comer may have his eye on the United States Senate. This belief is much stronger by the present outlook that Charles Henderson of Troy may be a candidate for governor two years hence. It is said that Henderson and Comer would not run for governor. They both have very busy lives. Mr. Carmichael will spend the day in Montgomery returning to his home Thursday evening.

INDIAN AND COW GIRL CLOSE DOOTHAN ENGAGEMENT

The Indian and Cow girl have closed their engagement at the South Station theatre after ten days of pleasing performances. They are among the "greatest" favorites that have ever visited Dothan with an entertainment of that nature.

NEW RAILROAD WILL ALSO REACH GULF

In the article of the incorporation of the new Dothan, Marianna and Gulf Railroad in The Eagle several days ago it was not stated that the road would reach St. Andrews Bay and the Gulf. The road will go from here to Marianna and from there to some point on the gulf that is to be decided later. Crews will be put to work on both ends of the line after the survey is made. Thus rushing the work of construction through.

THIS STORE WON'T GUARANTEE CALAMITY

But We Have a Liver Medicine That We Do Guarantee With Money Back Offer

The next time you think you need a dose of Calomel don't take it. Even if you have taken it often before this might be the very dose that would kill you. Its use is sometimes followed by dangerous after effects. If you are constipated or bilious or if your liver has gotten lazy and inactive take one or three doses of Dothan's Liver Tonic. It is a natural vegetable liquid will make you feel like new.

We would not commend Dothan's Liver Tonic in place of Calomel if we were not willing to fully guarantee it. So nobody who buys a bottle of Dothan's Liver Tonic will be disappointed. W. I. Brown's Drug Store does not find it a perfect substitute for Calomel may come into the store any day and get his or her money back. It has absolutely no bad after effects and is harmless for children as well as grown ups.

AMOS FORDHAM DEAD

Many of the people of this section of Alabama or the older ones will remember Amos Fordham. He was known in Henry county years ago but for many years has been a resident of Bainbridge, Ga. He died Tuesday in that city of paralysis. He was a brother of B. J. Fordham of Webb.

ACID PLANT AT MONTGOMERY GOES UP IN SMOKE

FLAMES SPREAD QUICKLY AND FIREMEN ARE POWERLESS WITH FULFILL WATER

Montgomery, Ala., May 11.—The fire destroyed the entire building of the American Agricultural Chemical Company in North Montgomery city at 10 o'clock Thursday afternoon. The building, a three-story frame structure, 300 tons of fuel oil is used in the acid plant and a lot of valuable machinery is stored in the building. The whole according to the close estimates made by J. R. Taylor, general manager, and W. D. C. Kewer, treasurer of the plant will total between \$76,000 and \$100,000. The two say the property was practically covered by insurance.

The fire originated from some unknown source on the rear roof of the building which is covered with a patented tar preparation. The flames spread rapidly and by the time the firemen arrived the entire structure was a long sheet of flame. The alarm was given by the engine room crew of the Virginia Carolina Chemical Company whose plant is a short distance away. They hurriedly turned on the piercing air whistle which brought out the employees of both factories. One of the clerks in the office of Superintendent V. B. Murray of the burning plant telephoned the alarm to headquarters. Every fire company in the city was ordered to the scene.

Little Water Available

The American Agricultural Chemical Company maintains a big water pump of the standard size. The crew was ordered to put this into operation at once but the flames from the burning building, which adjoins the house where the pump motor is located had melted the electric wires conveying the current and no water could be secured through the source. The long run from the city necessarily made a delay in the arrival of the fire department and the fire had gained much headway before the engines could begin playing streams of water upon the building.

Several firemen and electricians from the city were ordered out and upon their arrival temporary wiring was begun to secure current to operate the electric pump. The intense heat from the fire and the haste in which the men had to work brought about delays and after the building was almost completely destroyed the big pump began throwing intermittent streams upon the blaze and on the adjoining buildings in an effort to prevent their burning. Several lines of hose were run from the pump station and placed in the charge of negroes employed at the plant. Fifty five minutes the electric connection would break and the flow of water would stop. The electricians worked diligently to reestablish the connections and the water would again start after a short interval during which the fire engines poured a steady flow into the building.

Last Tower Whipped

Adjoining the burning building was the tower house, a five-story brick structure in which were the three high towers used in the manufacture of sulphuric acid. Although the two buildings were connected they were separated by a brick wall. Through several openings in this the flames gained entrance to the tower and twisted the lead towers rendering them useless. In front of the tower house was the burner room. The damage here was slight.

L. L. O'Kelly, of Thomasville, was in Dothan yesterday afternoon on business.

WILBUR WRIGHT, NOTED AVIATOR, PASSES AWAY

LOOK FATHOM DEEP IN HISTORY AND FIND COMES AT THE CRIME

Montgomery, Ala., May 11.—Following the little known fact that Wilbur Wright died at 1 o'clock Monday morning, the morning of his death, it is a sad and a cruel day in a somberous conflict with death. Mr. Wright died following a stroke of the heart which developed shortly after midnight. The stroke was sustained by members of his family which included his brother, Milton Wright and Orville Wright, co-inventor of the airplane.

Most alarming symptoms developed yesterday when the patient's fever suddenly mounted to 104. At this juncture of the crisis the patient was aided with chills. The physicians were baffled by this turn of events. The patient was seized with a phoid fever May 4 while on a business trip from the East. He immediately returned here from Boston consulting Dr. Conklin. He took to bed almost immediately. It was several days before the case was diagnosed definitely as typhoid.

Throughout the early part of his illness Mr. Wright attributed his sickness to some fish he ate in a Boston hotel. Arrangements for the funeral are incomplete.

Sorrow in Washington

Washington, May 30.—Profound sorrow is expressed here at Wilbur Wright's death by government officials, especially in the army signal corps. He was closely connected with the government in the early days of aeroplane development. Mr. Wright in February 1908 negotiated the first contract with the war department for aeroplanes.

Nations are carrying so many chips on their shoulders till they are falling off.

If you refer to one as a good citizen but a man with high prejudice probably he has a mean streak and that is the streak.

REVIEW AT THE HEADLAND AVENUE BAPTIST CHURCH

Considerable interest is centered in the announcement of the pastor, Rev. J. W. Partridge, who is holding the meeting, that on next Sunday morning at 11 o'clock he would speak on the subject "The Enforcement of Law." He also asks that the police force and the sheriff have a special invitation to be present. He desires the presence of all officers of the law where duty it is to enforce the law.

In his sermon last night he pointed out many policies in the lives of Christians which rob the church of its power.

CAN'T SHIP LIQUOR FROM WET COUNTY INTO DRY COUNTY

SUPREME COURT SAYS LIQUOR BILL IS STILL IN EFFECT IN DRY COUNTIES

Montgomery, Ala., May 11.—The Supreme Court of Alabama today ruled that the liquor bill is still in effect in dry counties. This is the first time the court has ruled on the constitutionality of the liquor bill. The court ruled that the liquor bill is still in effect in dry counties. The court ruled that the liquor bill is still in effect in dry counties.

The opinion, written by Justice Simpson, declares that neither the federal nor the Smith bills repeal the provisions of the liquor prohibition act which prohibits carrying from receiving and transporting prohibited liquors. In this respect the liquor bill is still in effect through out Alabama.

In arriving at a decision a writ of mandamus issued by Justice Cullen Genter compelling the Western Railway of Alabama to accept a shipment of beer from Montgomery to Opelika was pronounced erroneous.

The right to manufacture and sell liquors in a certain locality does not carry with it the right to carry these goods to another locality where the sale is prohibited by law, says the opinion. "In fact the whole spirit of the local option laws is that each locality shall have the right to regulate its own affairs on this subject."

The Supreme Court did not decide the question of whether it is lawful to ship liquor through a dry county from a wet county into a wet county. This question was not raised in the present case but the court in its opinion alluded briefly to the possibility of such a contention arising.

NO WATER FOR AUTO

COW GIVES HER MILK

NEED BRINGS BUTTER

Montgomery, Ala., May 30.—It is William a lawyer of Forsyth, and his brother Paul Russell Williams, had an experience right before last the truth for which they will vouch on the way to Marion in an automobile their water supply gave out. Unable to find any water in the vicinity, they finally hunted a cow and had her milked. The milk was put in the auto, and away they sped flying reaching Marion safe. The Williams found the milk costing a half pound of butter.

"IN SELECTING A PIANO FOR MY DAUGHTER"

I took both time and pains to see that only an instrument of the highest musical quality could start her right in her musical career. After a thorough comparison I selected the Emerson. I found that the Emerson was conceded to be in the very front rank of musical excellence; that it was considered marvelous like by artist and amateur; and that the action was elastic and responsive. To have withstood the test of over 60 years it must have had inherent quality of design, material and workmanship that shows itself in great durability.

Surely the verdict of those who know the Emerson through long association should decide you in its favor.

EGGLESS FOODS.

When eggs are forty and fifty cents a dozen one feels inclined to look for dishes that call for few or no eggs. Here are a few for those of us who must economize.

Oatmeal Cookies.—A cup of fine oat meal (this may be made finer by putting it through the meat grinder), a cup of flour, a half cup of lard or butter and lard mixed a half cup of milk two-thirds of a cup of sugar and a fourth of a teaspoonful of soda dissolved in milk. A little grated lemon or orange peel and nutmeg with flour enough to roll this.

Apple Sauce Cake.—A half cup of shortening, a cup of sugar, a cup of sifted apple sauce, a teaspoonful of soda, one and three-fourths cups of flour and spice to taste. Add raisins or currants if desired and bake in small cakes or in a loaf.

Hot Water Gingerbread.—Dissolve in a cup of boiling water two tea spoonfuls of soda, add a cup of molasses, a quarter of a cup of melted shortening and cinnamon ginger clove and nutmeg to taste. Use flour enough for a soft batter and bake in small patty tins. These are delicious with apple sauce and cottage cheese for luncheon or a dessert.

Feather Muffins.—Take a cup of milk, a tablespoonful of melted lard or butter, a half teaspoon of salt, a teaspoonful of sugar and two tea spoonfuls of baking powder. Mix together with flour enough to make a batter as stiff as an ordinary cake batter. Bake in muffin tins.

No Tigers in Africa
The natives of Africa fear the leopard almost as much as they do the lion. Once in a while some traveler tells of tigers in Africa. No tigers there, but careless writers think the name the leopard which has terror of its own and is scarce a less formidable than the monarch of the Indian animal kingdom.

What Seemed To Us To Be A Question, Is Now A Gratifying Success. It pays To Be Liberal With Our Trade.

Since we first announced that we should give away this Beautiful Upton Parlor Grand Piano to some one of our customers on Sept. 3rd our business has shown a big increase in every department. Of course the unusual values which we are offering have helped to make this and we shall continue along these lines. We are duly receiving new and attractive offerings from the Fashion Centers and you will find our stocks complete in all lines regardless of the heavy duty demand.

Be sure and ask for your Piano Votes with every purchase.
